Dear diving friends,

I am pleased to finally have the latest information and data for you  
 Indonesia trip 2022.

Travel period:           26.11.2022 (boarding in Sorong in the morning)  
                                   10.11.2022 (check out in Ambon in the afternoon)

In total we will have an unforgettable diving cruise for 15 days and 14 nights (plan  
 see below) experience. The travel period is chosen so that we have the best conditions in  
 Misool and we can guarantee hammerhead shark schools in Ambon.

Overall, the safari is all about big fish encounters. This is the goal  
 Itinerary designed. Both whale sharks and manta rays, large hammerhead shark schools, possibly  
 Encounters with molas and many other shark species will accompany us on this tour.

But macro lovers will also get their money's worth. Let me briefly describe the planned tour below:

## Itinerary

I am very happy that I was able to put together a fantastic tour with the fenides-liveaboard team so that I could offer you unique diving experiences.

Our tour will be a combination of the famous "Ring of Fire" and Raja Ampat, all indisputable highlights of Northern Indonesia.

Starting from Ambon, the macro sky of the archipelago, our schedule leads us straight into the Banda Sea. There are

huge hammerhead shark schools especially on the islands of Serua and Manuk. There is also a great spot for sea snakes at Manuk ... great for underwater photographers.

Most days, 3 dives are planned because the places are quite deep. We try to take every chance of a night TG. A cultural visit to the city of Banda Neira will round off our stay in Lake Banda.

Our next destination is Triton Bay, famous for the most pristine reefs in northern Indonesia. A small white tongue of sand will lead us along the coast of West Papua. Wide-angle lenses are essential here. WHY ??? Whale sharks. One of the biggest attractions in Triton Bay are the whale sharks that live there all year round. Huge swarms of anchovy and other small body fish are a safe source of food for these giants of the ocean.

The final destination of our trip will be Misool and Raja Ampat. These two regions explode with color and marine life, making their reefs one of the most beautiful ecosystems on our planet. In the Misool eco-park, we will encounter large oceanic manta rays, many shark species, huge sardine schools and all kinds of reef fish that make divers' hearts beat faster.

I can't list every single dive site here but I can assure you that our dive crew will do this cruise in the best and most professional way.

In conclusion, I would like to mention: It is a full boat charter and we would like to show you the most beautiful diving spots. But this also means that we are flexible in tour planning and respond to the wishes of our guests at all times.

We will make a tour proposal, which can be adapted to the actual conditions together with you during the tour.

#### The boat

You can find all information about the "Fenides" in the respective appendices. We expect the final photos in about 4 weeks. The boat is finished so far. Work on the interior is expected to be completed by the end of June 2019.

In the attached appendices you will find the respective specifications, equipment features, the deck plan and the cabin overview. A special room for photo and video editing is available for our photographers. Each cabin is also equipped with a tablet to enjoy the on-board entertainment program.

The "Fenides" is a boat of the absolute top class. From the equipment of the cabins, to the diving deck and the crew, we will leave nothing to be desired.

This trip will also be an culinary experience. Our guests are spoiled with the finest local and international cuisine.

Come on board and enjoy 2 fantastic and unique weeks in Northern Indonesia.

Pricelist:

Typ	Price per night	Total	reference
<b>Doppelkabine, Lower Deck</b>	<b>443,00 USD</b>	<b>6.202,00 USD</b>	<b>494,00 USD</b>
